## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites “at least one compound” and claims 12 & 13 recite “a mixture of compounds.” These claim preambles are improper, as only a single compound is set forth in a compound claim at a time. Thus, claim 1 should read “a compound” and claims 12 & 13 should read “a composition”. Further clarification and/or correction is required.

Claim 1 is rendered indefinite because of the use of “ $\Delta$ 4,5 position” and “ $\Delta$ 3A,4 position.” Applicant’s nomenclature is unclear because it is unclear how the carbons are being numbered. Further clarification is required.

3. Claim 26 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: process steps and reactants for the synthesis of the compound of formula 8. The claim presently recites only adding a catalyst to reactant to yield the product. However, a catalyst does not react, but serves to speed up the reaction. Further clarification is required.
